EXPECT MORE

At Chimney Design Solutions®, we take great pride in surpassing your expectations. Our company prioritizes long-term relationships over short-term profits. To ensure our relationships thrive, we adhere to the following three principles for every project we undertake:

- **Compliance.** Our design team are active members of multiple codes and standards committees, including ASHRAE TC6.10, NFPA 54, NFPA 211, UL 103, and UL 378. In addition, we have a thorough understanding of the IBC, IFGC, IMC, and NFPA 92.
- **Honesty.** We believe in long-term customer relationships. In order to build loyalty and trust with our customers, we always provide you and your client with the proper solution, even if it does not fit within our product portfolio.
- **Knowledge.** Our design team has over three decades of design experience, so we don't have to rely on computer programs or manufacturers to guide your design. Additionally, our estimators possess comprehensive knowledge of our product line, ensuring accurate answers to any of your questions.

OUR TEAM

Our team consists of individuals with extensive experience, expertise, and energy for providing superior customer service and technical assistance. When you choose to work with us, you can expect unmatched and exceptional service on all of your projects.
